
MANAGEMENT OF ACTUAL OR POTENTIAL AGGRESSION (MAPA®)

Level 1 & 2 'Licensed MAPA® Trainers'

1-DAY ADVANCED PRACTICE WORKSHOP

'The Use of Physical Interventions: Single-Person Holding Skills for Small Children in Pre-School and Primary Settings'

This APW is Suitable for Update and Reassessment **and** Initial Training in Single-Person Holding Skills for Small Children

13 September 2010

Newcastle-under-Lyme Venue – To be Advised

Nominations are invited from existing Licensed MAPA® Trainers (Levels 1 and 2) working within existing Positive Options BILD Accredited MAPA® Approved Training Centres (ATCs) to attend our 1-Day Advanced Practice Workshop for single-person holding skills for small children. This workshop is a BILD certificated event and will equip trainers with relevant knowledge and skills to deliver MAPA® training into 'early years' settings. The exact venue will be notified to applicants closer to the time of the workshop commencing.

The cost of attending the Course is **£95.00 per person**, plus VAT charged at the standard national rate. This fee includes the provision of all course materials and refreshments. Due to the number of trainers who have already expressed an interest in attending this workshop and the need to undertake formal trainer assessments of taught skills, places are restricted to a **maximum of 18 participants**. Priority will be given to Trainers requiring **update and reassessment**, with remaining places being offered for staff requiring **initial** training.

Closing Date for Nominations: Friday 28 August 2010.

Important Information about Eligibility

To be eligible to attend this Course the person applying **must** be working in settings where holding small children is relevant, or be required to deliver specific physical interventions training to staff within the ATC who work in settings for children (pre-school or primary settings). If your service does **not** fit this criteria but you feel receiving training in the skills might be useful; for example, in services for children and young people where some young people may be physically under-developed and thus small, please contact **Chris Stirling** at Positive Options to discuss your circumstances and to determine whether the course and skills taught might be useful in your service setting.
