Subject: **ROOM 42 - POSITIVE OPTIONS NEW TRAINING FACILITY AT LYMEDALE BUSINESS INNOVATION CENTRE, NEWCASTLE UNDER LYME**

Positive Options is pleased to announce details of its new training room at Lymedale Business Innovation Centre. Customers of the company will be aware that Positive Options moved its operations to Lymedale at the end of January 2011.

The addition of a training facility on site will enable full control of venue suitability and environmental requirements, including health and safety; access to specialist furniture and equipment used in some training; for example, clinical equipment necessary for our new **CH-3SM Advanced Clinical Interventions** programme, and easy access to and by the Positive Options management and administration team. There is also ample free parking on site for people that attend programmes that are run from Lymedale and visiting mobile catering for people who wish to purchase hot and cold snacks.

For more information about **CH-3SM Advanced Clinical Interventions**, a 'joint solution' developed and offered exclusively in the UK by Positive Options and CPI please click [here](#).

For more information about Positive Options new premises and to read our News / Media release (27 January) please click [here](#).

Editorial Notes:

Lymedale Business Innovation Centre is located close to motorway links in Newcastle under Lyme, Staffordshire and forms part of the Staffordshire Business Innovation Centre (Staffordshire BIC) set-up as part of a European Network of over 160 organisations that assist small-medium business enterprises and individuals to evaluate and develop inventions, innovations and technology related issues. The Centre offers fully serviced premises with excellent parking and on-site hospitality. The Centre is shared with over 30 small-medium sized organisations that will enable synergies to be explored and potentially productive local collaborations.

For more information about the Staffordshire BIC, click [here](#).
